6/15/20 As previously reported Poplar Run Skilled Nursing Center had 18 residents and two staff members who tested positive during the baseline testing. The facility is managing all resident needs and risks as well as implementing all measures as outlined by State and Federal Regulators. Within the last 24 hours one resident presented with respiratory symptoms suspicious of COVID-19. The residents roommate was transferred to a private room and the resident in question is now in private room accommodations. Both residents have been tested for COVID-19 and test samples are being sent to the lab for processing. Results are expected to return to the facility later this week. The resident representatives for the residents in question were notified and updated on the resident status and interventions in place. The facility continues to monitor all residents on the facility for signs or symptoms of COVID-19 and has implemented State and Federal guidance related to the prevention and management of COVID-19

6/15/20 Poplar Run Personal Care Facility will begin baseline testing for all residents and staff in personal care this week. Lab samples will be submitted to WellSpan lab for processing with results anticipated later this week. No residents or staff are currently symptomatic of COVID-19.
