ACCOMMODATIONS

Apartments. Garden Homes. Cottages. Each with a unique character and flavor. It all depends what *you're* looking for. "Home" means something different to everyone... That's why we offer 10 different styles of units — find whatever you're most comfortable with. For those who value the fellowship of neighbors, the convenience of on-site dining, library and activities, plus an indoor connecting link to our Healthcare Center, the 150-unit apartment complex will have the most appeal. Everything's right at your fingertips and available at your leisure. Like to catch a classic movie on a rainy Saturday night? There's one playing down the hall right now.

If you'd like to maintain a neighborhood lifestyle, there's no better place than in a Poplar Run Garden Home or Cottage — nestled along scenic and peaceful Cottage Drive. Garden Homes are smaller one-bedroom cottages sans garages. It's the feel of a cottage combined with the affordability of an apartment unit.

Cottage life is just like classic neighborhood living, but without all the work. No more mowing grass, pruning shrubs, raking leaves or shoveling snow. And, just like in the apartment complex, we do the cleaning once a week, too. Don't want to completely give up dirt under your fingernails? Curious how a bed of impatiens, fountain grass and black-eyed Susan's would look out front? Be our guest — it's your home!

APARTMENTS

Apartment living that offers something for everyone. Like a little extra space and the idea of sipping morning coffee on a bright balcony while watching the birds frolic in the nearby dogwood trees? Then you'll want to consider the 1,017 square-foot *Taylor* model. Simply want an affordable one-bedroom unit with enough room to host your bridge group now and then? Our 544 square-foot *Lewis* sounds like you.

There are 7 different apartment models in all, 5 one-bedroom styles, and 2 two-bedroom. You'll pay no utility or tax bills; everything you need is included in your monthly maintenance fee with the exception of local telephone service — see below for details.

All apartments feature:

- Separate heat/air conditioning units* in each room
- Electric range, refrigerator and in-sink garbage disposal*
- Hot water heater*
