Table Shuffleboard 10:30 (Corner Pocket) - Table shuffleboard is a game in which players push weighted pucks down a long table into a scoring area at the opposite end of the table. The objective of the game is to slide all one's pucks so that they reach the highest scoring area without falling off the end of the board into the alley. Furthermore, a player's puck must be farther down the board than his opponent's in order to be in a scoring position. This may be achieved either by knocking off the opponent's puck(s), or by outdistancing them. The table has been in our Corner Pocket by the pool tables ...let's learn how to play it!
